The **LCPA** course is taught entirely through Jupyter notebooks, so there is no separate written companion. The full set of exercises, solutions, and lab material lives in the dedicated GitHub repository:

Open the LCPA repository on GitHub

<https://github.com/USERNAME/LCPA-projects>

(The URL placeholder above is read from `Notes/_projects_github.yml`. Update that file once the repository is live and re-run `./render_all.sh`.)
